Re: Riccardo Lo Faro

I would like to express my appreciation for the personal and professional qualities of Riccardo Lo Faro.

I had the opportunity to meet him during the creation of his editorial work PrimiDieciUSA and I immediately appreciated his seriousness and correctness, as well as his undoubted experience as an author of biographies and books of various genres.

The esteem is such that we have agreed with him on a collaboration for "PrimiDieciU40", the creation of a second version of PrimiDieciUSA which celebrates the ten young people every year Italian professionals in the USA who have distinguished themselves most for professional success.

I wish Riccardo Lo Faro every deserved success in his current and future editorial and professional commitments.
